

Secrecy - Arise And Fall

tom: Em Em Dark comes the night Death comes in disguise Here comes the crow To carry your soul They erased your light They took your paradise They joke on your face And some said it was faith Fly on, fly on Arise and fall Fly on, fly on Arise and fall Fly on the crow's wings Hear the rain sing See through his eyes You can see the stars shine He is the passenger He could be a stranger

Acordes

```
He's the flame that kept your soul
Knowing you're the devil's son
Fly on, fly on
Arise and fall
Fly on, fly on
Arise and fall
Like a bird in the sky
I wish I could fly
Another time another life
And you must say
Goodbye
Please look into my eyes
Let me lead you to paradise
Do you believe in angels?
Do you believe in god?
Fly on, fly on
Arise and fall
Fly on, fly on
```

Arise and fall
