                                                               Wearing nothing but your cologne, cologne
 There's a reason you're everywhere
                                                               Wearing nothing but your cologne
 Breathe you in like you're in the air

 Maybe you should call off the day
 Give your girl some time to play
                                                               All the way down

 In my room, from the ceiling to the floor
 My body knows that you've been here before
