

Selena Gomez - Falling Down

```
When your falling down
   (intro 4x) Dm F C Bb Gm Bb
                                                            (when your falling down)
                                                            (interlude 2x) Dm F C Bb Gm Bb
(verse 1 bass only)
You walk and talk like
                                                            (verse 2 - bass only)
   C Bb Gm Bb
                                                              Whats out of place when you
your some new sensation
                                                                            Bb Gm Bb
                                                            look into the mirror
 you move in circles you
                                                              The truth is blurry but the
              Bb Gm Bb
dont need an invitation
                                                                                Bb Gm Bb
                                                            lies are getting clearer
 you spend your money you
   C
                 Bb Gm Bb
                                                              Your eyes are fixed your
cant get no satisfaction
                                                                      Bb Gm Bb
                                                            smile is so elastic
 you play if right so you
                                                                        F
                    Bb Gm Bb
                                                              You gave me roses but they're
can get the right reaction
                                                                               Bb Gm Bb
                                                            all just made of plastic
(refrain)
Distortion Guitar enters
                                                            (repeat Refrain and Chorus)
Dm F C
 it wont be long my darling
                                                            (bridge)
Dm F C
                                                             Dm
 pick up the phone nobodies on it
                                                            smile for the camera
Dm F C
                             Bb Gm Bb
                                                            everybodys looking at you
where are your friends now baby?

Dm F C Bb (
                                                            smile for the camera if your
                              Bb Gm
                                                            heart if full of pressure
 hows are the ones supposed to be there for
                                                            smile for the camera
                                                            (camera camera)
(chorus)
                                                            smile for the camera
Dm B
                                                            its gonna catch you
 You When your falling down
                                                            (interlude 2x) Dm C F Gm
the world starts spinning out
                                                            (repeat chorus)
You When your falling down
                                                            (outro)
no its not all about
                                                             Dm
                                                            Smile for the camera
You When your falling down
                                                            everybodys looking at you
                                                            Smile for the camera if your
you know i'll be around
                                                            heart is under pressure
