Selena Gomez - My Dilemma

Tom: G

```
    Verso 1:
                 C                  D
you make me so upset sometimes
                        G          Em
I feel like I could lose my mind
              C             D
the conversation goes nowhere
                        G         Em
cause you never gonna take me there
      C        D
and I know what I know
      G                  Em
and I know you're no good for me
         C          D
yeah, I know, what I know
      G                  Em
and I know it's not meant to be

Refrão:
           C
here's my dilemma
                 D

          Em            G
and the other half wants to forget
             C
my my my dilemma
                 D
from the moment I met you
     Em                          G
and I just can't get you out of my head
              C        D
and I tell myself to run from you
      G              Em
but I found myself atractted
          C          D
to my dilemma my dilemma
Em
it's you it's you

Verso 2:
                    C             D
you eyes have told a thousand lies
                       G          Em
but I believe them when they look in mine
                          C              D
I heard the rumours but you won't come clean
                      G          Em
I gues I'm hoping it's because of me
         C          D
yeah I know, what I know
      G                  Em
and I know it's not meant to be
