

Selena Gomez - Parachute

```
Tom: C
                                                                I don't need a parachute
                                                                Baby, if I've got you
I don't tell anyone about the way you hold my hand
                                                                Baby, if I've got you
I don't tell anyone about the things that we have planned
                                                                I don't need a parachute
I won't tell anybody
                                                                You're gonna catch me
Won't tell anybody
                                                                You're gonna catch if I fall
                                                                Down, down, down
They want to push me down
                                                                I don't need a parachute
They want to see you fall down
                                                                Baby, if I've got you
Won't tell anybody how you turn my world around
                                                                Baby, if I've got you
I won't tell anyone how your voice is my favourite sound
                                                                I don't need a parachute
Won't tell anybody
                                                                You're gonna catch me
Won't tell anybody
                                                                You're gonna catch if I fall
They want to see us fall
                                                                Down, down, down
They want to see us fall down
                                                                I won't fall out of love
I don't need a parachute
                                                                I won't fall out of,
Baby, if I've got you
                                                                I won't fall out of love
                                                                I won't fall out of,
Baby, if I've got you
                                                                I won't fall out of love
I don't need a parachute
                                                                I won't fall out of,
You're gonna catch me
                                                                I won't fall out of love
                                                                I'll fall into you
You're gonna catch if I fall
                                                                I won't fall out of love
Down, down, down
                                                                I won't fall out of,
I don't need a parachute
                                                                I won't fall out of love
                                                                I won't fall out of,
Baby, if I've got you
                                                                I won't fall out of love
Baby, if I've got you
                                                                I won't fall out of,
I don't need a parachute
                                                                I won't fall out of love
                                                                I'll fall into you
You're gonna catch me
You're gonna catch if I fall
                                                                I don't need a parachute
                                                                Baby, if I've got you
Down, down, down
                                                                Baby, if I've got you
                                                                I don't need a parachute
Don't believe the things you tell yourself so late at night
and
                                                                You're gonna catch me
You are your own worst enemy
                                                                You're gonna catch if I fall
                                                                Down, down, down
You'll never win the fight
                                                                I don't need a parachute
Just hold on to me
                                                                Baby, if I've got you
I'll hold on to you
                                                                Baby, if I've got you
It's you and me up against the world
                                                                I don't need a parachute
It's you and me
                                                                You're gonna catch me
                                                                You're gonna catch if I fall
                                                                Down, down, down
```
