Selena Gomez - Sober

Tom: A
Intro: D E A
D E Gbm (2x)

```
D              E                    A
We fall for each other at the wrong time,
D        E                  Gbm
only for a moment, but I don't mind.
D              E                  A
Guess I don't know where to draw the line, the line, the line,
D              E            Gbm
we're playing the same game every night.
```

```
D            E              A
Up in the clouds, yeah you know how to make me want you.
D            E            Gbm
When we come down, oh I know, yeah I know, it's over.
      D              E              A
You don't know how to love me when you're sober,
   D              E          Gbm
when the bottle's done you pull me closer.
        D              E              A
You're saying all the things that you're supposed to,
        D              E                Gbm
but you don't know how to love me when you're sober.
```
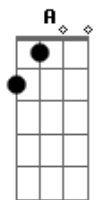

```
   D        E                A
Why is it so different when we wake up?
D            E                Gbm
Same lips, same kiss, but not the same touch.
   D                E        A
Don't you know that you're doing just enough, but not enough,
D              E          Gbm
but I know what's next and I want so much.
```

```
D            E              A
```

```
Up in the clouds, yeah you know how to make me want you.
D            E          Gbm
When we come down, oh I know, yeah I know, it's over.
      D              E              A
You don't know how to love me when you're sober,
   D              E          Gbm
when the bottle's done you pull me closer.
        D              E              A
You're saying all the things that you're supposed to,
        D              E                Gbm
but you don't know how to love me when you're sober.
```
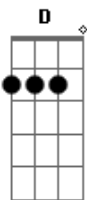

```
Bm                                A
I know I should leave, I know I should, should, should.
   D                                      Dbm
But your love's too good, your love's too good, good good.
Gbm                              A
I know I should leave, I know I should, should, should.
   D
But your love's too good, your love's too good, good good.
```

```
      D              E              A
You don't know how to love me when you're sober,
   D              E          Gbm
when the bottle's done you pull me closer.
        D              E              A
You're saying all the things that you're supposed to,
        D              E                Gbm
but you don't know how to love me when you're sober.
```

```
         D  E  A              D  E  Gbm
You've got a hold on me, your'e like a wasted dream.
      D  E  A
I give you everything.
        D              E                Gbm
But you don't know how to love me when you're sober.
```
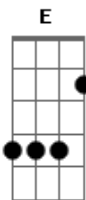

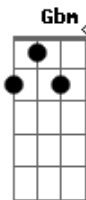

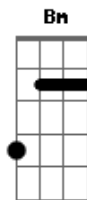

Acordes

A   D   E   Gbm   Bm   Dbm
