[Primeira Parte]

F               Am
They're coming, creeping from the corner
                F
And all I know is that I don't feel safe
                Am
I feel the tapping on my shoulder
       F
I turn around in an alarming state
Am                              F
But am I losing my mind? I really think so
      Am
Not a creature in sight
                F
But, what you don't know

[Pré-Refrão]
                              G        Em     E
Is that my breathing gets faster and so does my heartbeat
F                 G   E                        Em
I wish this was over, I wish that this was a dream but

[Refrão]

                                    C
I created a monster, a hell within my head
                F
With nowhere to go, I'm out on my own
           E
Oh, I'm so scared
Am                      C
I created a monster, a beast inside my brain
     F
With nowhere to go, I'm out on my own
         E
My mind impaired
                        Am  F  Am  E
Awake me from my nightmare

[Segunda Parte]

      Am
Wait, something doesn't feel right (feel right)

No, something seems wrong (wrong)

And I've been feeling this way (oh that's too bad)
     A
For far too long
                                              Am
As my vision gets blurred, my skin's getting colder
                        Em          Am
Appearing young, while I'm growing older

I collapse to the floor and scream
        F       E       Am
"Can anybody save me from myself?"

[Refrão]

[Ponte]

                  E                    F
Walking to the ledge, I find myself looking down
                       E                              Am
Frozen still with fear, now I'm plunging to the ground
                       E
If only I knew how to fly
                        F                              E
Then I could convince myself this isn't my time to die
                        Am
Instead I'm rocketing faster and faster
  E
I dive-bomb to the floor
              F
And when my body crashes to the pavement
    E
I'm right back where I was before
