Tom: E
Intro: Dbm   E   B

                            A
Take me back to the valley
We were both happy
            Dbm
Kiss in the rain
We were Noah and Allie
                  E
And even in pain you would never come at me
                B
Yeah we were insane
And I know you like acting
                    A
But girl don't you act like you don't need my protection
                  Dbm
Even when you'd scream you sweared you'd resent me
                         E
Ignored all these hoes
They'd tried to go tempt me
                B
But you had to go
Go out to tempe
           A
Lately I feel like you never did love me
              Dbm
Or else you never would've moved so quickly

                 E
To that other guy, Fuck that other guy
         B                                         A
Left me in stitches Shawn Mendes type you know tonight

I've been walking alone
                         Dbm
I've been falling apart
I've been chasing the moon
                           E
I've been chasing the stars in the sky, yeah you know they
ignite
                            B
Like the sparks in your eyes, when we kissed the first time
   A
And I've been looking for love
All I'm finding is pain
Dbm
Trying to rise above your name
E
Remember those nights we'd just listen to Shawn
B
Heart like December now that you're gone

              A
Remember the valley you told me you loved me
           Dbm
Back in the day when things were easy
            E
Even in pain you would always believe me
                   B
Yeah you used to say, that you never would leave me

                A
Remember all the things that we said that we would do
           Dbm
Remember all the dreams
```

```
That we dreamed that would come true
                          E
Leave this world behind run away just me and you
                      B
Can we just rewind live life we used to do
                     A
You know there's a scar in my heart it bleeds for you
              Dbm                              E
My world torn apart, do it again just for you
We used to lay listen to Shawn all summer
B                                            A
You got me fallin don't think I can recover no

I've been walking alone
                         Dbm
I've been falling apart
I've been chasing the moon
                           E
