Sevendust - Angels Son Intro

Tom: G

 I haven't seen any tabs for this song's intro that are worth
a damn so
I decided to make one.

 The tuning for this song is dropped a ton, but the song
sounds o.k. w/ standard
tuning.
Intro:

If you care or not I also noticed that the first part of Riff
1 is always wrong

also so here it is.

Riff 1:

   If you look at other tabs for the rest of the song they
are usually pretty
close. But I'm positive that this is right because I figured
it out myself. And
even if it's not 100% it's a hell of a lot more right than any
other tab.

Listen to the song for tempo, don't e-mail me corrections
because I don't care.
