

# Shakatak - Perfect Smile

tom:

Intro: G G Gm F G

Finally I've found someone  
That I can build my world around  
And speaking honestly  
There could never be  
No-one but you

Happiness is what you bring  
And I just can't help wondering  
If all that's magical ends  
Like a fairytale happily  
And given time to reminisce  
Lingering on love's sweet kiss  
I'm aware of all the qualities  
Living in you, in you

There's a certain light  
Shining in your eyes  
And love within  
Your perfect smile

I just wanna shout it out  
And tell me the world  
What all this love's about  
And that I appreciate  
The power you create

G  
So let it be
