

Shakira - The One Solo

Tom: **A**

Tabbed out by : Charlotte_Punk
Now this tab is the only one on this site so far an
all the other sites i know dont have a tab for it so
heres my interpratation of the song

standard tuning
play softly but not to soft you'll get the hang of it...
An this song is played on an ele-acoustic i only have an
acoustic
so yeah an dont put your fingers to hard on the strings you
need to
make it like theres feed back aso slide on the strings a
little

h - harmonic - wiggle finger on fret to get an echo noise
s - slide - slide long strings

guitar 1 intro:

guitar 2 intro:
just at the start it comes in when guitar 1 plucks the first
string

combind intro: or if u wont a solo kinda thing just do this:

verse and part chorus

guitar 1 : this goes into the chorus same as guitar 2 down
there

guitar 2: it plays this kind of tune on electric guitar
while guitar 1 the acoustic plays the one that the top

guitar 1 : this is the end of the acoustic then the electric
takes over

And thats all i've tabbed for now haven't got my electric yet
so i cant tab the electric out soz guys. So ne one out there
recons they can
tab the electric by all means tab it. Any corrections comments
