

Shaman - Over Your Head

Tom: **C**

E **F**
The sands of gold are falling from the sky tonight
E **F**
The sound; a million voices screaming out
E **F**
The prophecy has moved on with the stars
E **F**
And now I know that I could be the chosen one

E **F**
Oh, the desert breeze had turned to such a storm that night
E **F**
And in my dream I nearly saw his face again
E **F**
Waving me up to come closer to his tent
E **F**
Can't control myself, I'm needing his embrace

E **F**
Looking up over your head

E **F**
Put on my suit, like any other morning time
E **F**
I washed my face in purest water
E **F**
Got brand new shoes - it's good to feel that you're alive
E **F**
But life will get along to something larger than me!

E **F**
Looking up over your head
E
- I wanna tear through the sky
F
Looking up over your head
E
- And be the very first to die
F
Looking up over your head
E
- One thousand miles and I'll be there
F
Looking up over your head
E
- Just when you look over your head

C **F** **G** **Am**
Over your head, inside your mind
C **F**
Visions you've had
G **Am**
Keep passing by
C **F**
Don't be afraid,
G **Am**
Face it instead,
F **G** **C**
Looking up over your head
F **G** **Am**
Looking up over your head
