Shane Macgowan And The Popes - Song With No Name

Tom: D
Intro: D G D

```
      D           G
Long years ago i fell in love
         G            D
With a lady proud and fair
      D            G      D
So passionate were she and I
                  Bm
We made fire in the air
    D                 G    D
I loved her more than life itself
      D               Bm
She loved me just the same
         D                  G
And it broke my heart, to think we`d part
    G              D
If she ended the affair

            D             G                          D
But I was brutal, I was ignorant, I was cruel, I was brash
    D            G    D                      Bm
I never gave a damn about the beaty that I smashed
     D           G      D                     Bm
No sadist I, I found delight in making my love cry
         D                 G
Now I`d pray for a single kiss from her
        G             D
To be lashed and cruicified

( D  G  D )
( D  G  D  Bm )
( D  G  D  Bm )
( D  G  D )

     D              G
And now I fear this lady fair
       G            D
Can never more be mine
      D                      G    D
Long gone are nights in my lonely bed
       D            Bm
All suffering and crying
       D                  G          D
And though I fear that through this life
        D             Bm
She`ll call me only friend
         D                G
Til I`m dead and burried in my grave
      G              D
My love will never end

( D  G  D )
( D  G  D  Bm )
( D  G  D  Bm )
( D  G  D )
```
