

# Shawn Mendes - Aftertaste

Tom: Db

(com acordes na forma de C )  
Capostrate na 1ª casa

Re-rewind Friday night, never forget it, how you let me go  
No more lies I'll be fine, know where I'm headed, probably should've known

And now you're gonna say pretty, please forgive me  
Fool me once, told you twice gonna regret it, now you're all alone yeah

Turns out that no one can replace me  
I'm permanent, you can't erase me  
I'll help you remember me, one more kiss is all it takes  
I'll leave you with the memory, and the aftertaste

Close your eyes, you can't hide, try to forget me, but I'm everywhere  
I'm the smell on your sheets you weren't ready, when you left me there

And now you're gonna say pretty, please forgive me, yeah  
Bet it hurts, it gets worse, you know nobody, said it would be fair oh

Turns out that no one can replace me  
I'm permanent, you can't erase me  
I'll help you remember me, one more kiss is all it takes  
I'll leave you with the memory, and the aftertaste

Now there's something in your way, cause you threw it all to waste  
And you wonder if you could take back what you did that day, and it hurts cause

Turns out that no one can replace me  
I'm permanent, you can't erase me  
I'll help you remember me, one more kiss is all it takes  
I'll leave you with the memory, and the aftertaste

Truth is that no one can replace me  
I'm permanent, you can't erase me  
I'll help you remember me, one more kiss is all it takes  
I'll leave you with the memory, and the aftertaste

And the aftertaste

## Acordes
