                C F C
Oh, you waited so long
C F C F C
Sometimes it's hard to stand out
 C E Am
But you don't have to do anything else
 C F C
But be yourself C F C F C
Oh, you dressed up so nice
But all I could see was your eyes
 C E Am
And the crowd came and pulled you away
    C F C
And then you were gone
No, yeah
And I don't even know your name
                    F
    F
All I remember is that smile on your face
            F C
And it'll kill me everyday
C E F C
Cuz I don't even know your name
Oh, everywhere that I go
I see your face and it kills me to know
```

```
That you never know what you did to me
And now you were gone
Yeah, I can't stop thinking about you
And I don't even know your name
All I remember is that smile on your face
                   F C
And it'll kill me everyday
C E F C
Cuz I don't even know your name
I'm running, I'm searching
And I don't know where to start
I'm dying my love
You punched a hole right through my heart
I won't stop, stop looking
'Till I hold you in my arms
I'm running, I'm running
I'm running
C E
And I don't even know your name
                  F
C E
All I remember is that smile on your face
And it'll kill me everyday
C E F C
Cuz I don't even know your name
