                                                               The only thing I'm thinking 'bout is you and I
                                                               'Cause I can't get you off my mind
  All it'd take is one flight
                                                                                                        Δm
                                                               Can't get you off my mind, I can't seem to get you off my mind
   We'd be in the same time zone
  Looking through your timeline
                                                               Let's get lost tonight
   Seein' all the rainbows, I
                                                               Let's get lost tonight
                                                               Baby, you and I can't seem to get you off my mind
  I got an idea
  And I know that it sounds crazy
                                                               Let's get lost tonight
                                                               Let's get lost tonight
   I just wanna see ya
                                                                                    С

         Am
Oh, I gotta ask
                                                               Baby, you and I can't seem to get you off my mind
Do you got plans tonight?

I'm a couple hundred miles from Japan, and I
I was thinking I could fly to your hotel tonight
                                                               Do you got plans tonight?
'Cause I can't get you off my mind
                                                               I'm a couple hundred miles from Japan, and I
Can't get you off my mind, can't get you off my mind (oh)
                                                               I was thinking I could fly to your hotel tonight
                                                               'Cause I can't get you off my mind
  I could feel the tension
                                                               I can't get you off my mind
   We could cut it with a knife
  I know it's more than just a friendship
                                                               Do you got plans tonight, baby?
   I can hear you thinking 'bout it, yeah
                                                               I was hoping I could get lost in your paradise (paradise)
  Do I gotta convince you?
                                                               The only thing I'm thinking 'bout is you and I
                                                               And I can't get you off my mind
  That you shouldn't fall asleep?
   It'll only be a couple hours
                                                               Can't get you off my mind, I can't seem to get you off my
                                                               mind, yeah
And I'm about to leave
                                                               Let's get lost tonight
Do you got plans tonight?
