Shawn Mendes - Running Low

Tom: C

Intro: 2x: C   G   F

```
C            G                 F
Weeks on end, I'm on the road
C            G                 F
I start to lose my sense of home
C            G                 F
I should've called so many times but I...
C            G                 F
I just sat next to my phone
Am            G          F
Just know it takes it from me
Am  G      F      G
To end this darling, no

C              G                      F           G
   And I know you'll find someone who gives you the time I
didn't give to you
Am
   I'm running low
G                       F
   I'm sorry but I have to go
G
   Woah
C        G
   It may be I who never feel
F              G
   You gave me something so real
Am
   I'm running low
G                         F    G
    I'm sorry but I have to go

C    G      F G  C    G      F G
Woah, Woah,      Woah, Woah

C        G               F
Thinking back to every night
C          G              F
That we just laid there for a while
C        G               F   G
And when I looked into your eyes
C        G               F
Never thought I'd say goodbye
Am            G          F
Just know it takes it from me
Am  G      F      G
To end this darling, no
Yeahhh

C          G                  F              G
```
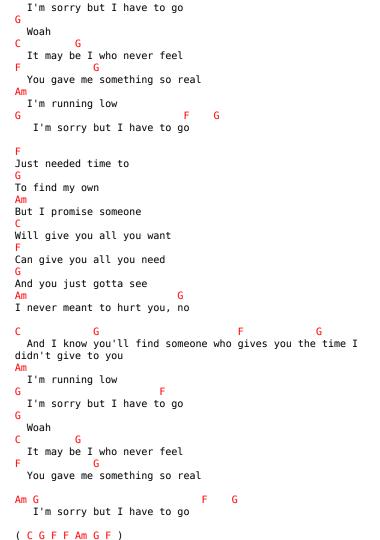

```
   And I know you'll find someone who gives you the time I
didn't give to you
Am
   I'm running low
G                       F
   I'm sorry but I have to go
G
   Woah
C        G
   It may be I who never feel
F              G
   You gave me something so real
Am
   I'm running low
G                         F    G
    I'm sorry but I have to go

F
Just needed time to
G
To find my own
Am
But I promise someone
C
Will give you all you want
F
Can give you all you need
G
And you just gotta see
Am                            G
I never meant to hurt you, no

C          G                      F           G
   And I know you'll find someone who gives you the time I
didn't give to you
Am
   I'm running low
G                       F
   I'm sorry but I have to go
G
   Woah
C        G
   It may be I who never feel
F              G
   You gave me something so real
Am  G                          F    G
    I'm sorry but I have to go
```
