

She & Him - Lingerin Still

Tom: C

(intro) C C7 F D7 Dm G C

(verso 1)

I like to learn things slow

I like learning a lot

I like to get it all again and in the end you know you get what you got

I like to mean what I say

But it dont always come through

Cause if I say it all again again again it doesnt make it more true

(refrão)

And the worlds like a science and Im like a secret

And I saw you lingering still (still)

I saw you lingering still

(verso 2)

Its all just news to me

Dont really care if it hurts

F

Cause if I knock it I wont know it, then I know that it will only get worse

He was different at first

But then he wont understand

Because hes never gonna know me if he doesnt want to just shake my hand

(refrão)

And the worlds like a science and Im like a secret

And I saw you lingering still (still)

I saw you lingering still

(piano solo) C C7 F D7 Dm G C

(guitarra solo) C C7 F D7 Dm G C

And the worlds like a science and Im like a secret

And I saw you lingering still (still)

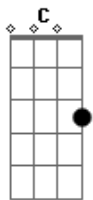

And I saw you lingering still

And the worlds like a science and Im like a secret

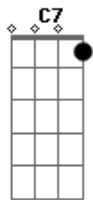

And I saw you lingering still...

I saw you lingering still. (C)
