

# Shinedown - Unity

Tom: **C**  
Intro: **Am F Dm F**

I found a **Am** note with your name and a picture of us  
Even though it was framed and covered in dust  
It's the **Am** map in my mind that sends me on my way

They say it's **Am** never too late to stop being afraid  
And there is no one else here so why should I wait  
And in the **Am** blink of an eye the past begins to fade

Pre Refrão:  
So have you **F** ever been caught in a **C** sea of **G** despair  
And your **F** moment of truth is the day when you say I'm not **F** scared

Refrão:  
Put your **Am** hands in the air if you hear me out there  
I've been **C** looking for you day and night  
Shine a **Am** light in the dark, let me see where you are  
'cause I'm **C** not gonna leave you behind  
If I told you that you're **F** not alone  
And I show you this is **C** where you belong  
Put your **Am** hands in the air... one more time

I've seen **Am** a million miles, met a million faces  
Took all **F** I knew to reach all these places

And I'd do it again if it brings me back to you
