

Sia - Little Black Sandals

```
Intro: Em C G G
[Verso]
I'm being dragged down
Down by the hand
The hand of a golden giant man
He's crushing my knuckles
Splitting my skin
  Em
He says he will let go
           G
If only I'd ask it of him
Em C G
He says Girl, it's your call
         Em C
You wanna fly You wanna fall
        Em
So I shout...I wanna get away from you
    G
As fast as I can
I tell my feet to move it
I hope they have a plan
[Refrão]
These little black sandals are walking me away
These little black sandals are heading the right way
These little black sandals are walking me away
                C G
These little black sandals saved my life today
[Verso]
```

Acordes

```
So now I'm free....free
From the big bad giant
Who was stalking me
Thank you feet, for guiding me
I'm glad somehow I got brains down there, at least
[Refrão]
These little black sandals are walking me away
These little black sandals are heading the right way
                    C
These little black sandals are walking me away
These little black sandals saved my life today
[Verso]
Sometimes I'm tempted
Sometimes I am
I would be lying if I said I didn't miss that giant man Em C
Oh... He was the line between pleasure and pain
But me and the feet have some years to reclaim
[Refrão]
These little black sandals are walking me away
These little black sandals are heading the right way
                   C G
These little black sandals are walking me away
These little black sandals saved my life today
```
