

# Sia - Midnight Decisions

Tom: **G**

**Bm**  
Remember when we had it all? Remember when you took my calls?  
**Em** You were my whole world You were my whole world  
**Bm** Not a thing said to me Question now if my heart bleeds  
**Em** You were my whole world You were my whole world

**C** I can't stop watching my phone Can't turn it off  
**Em**

**G**  
What is wrong with me? I can't, baby But if you change your mind

**C** Then I'll miss it Now I'm crying alone Hotel, never much fun  
**Em** Not when there's nobody to catch your tears Out here

**Em** I know Last night we made some midnight decisions  
**C** Did I mess up? Oh God I hope I didn't  
**Em** It's all a blur when we talk through the liquor  
**C** I always regret midnight decisions  
**Em** I always regret midnight decisions  
**C** I always regret midnight decisions  
**Em** I always regret midnight decisions  
**C** I always regret midnight decisions  
**Em** I always regret midnight decisions

**Bm**  
Soothe me now, soothe me, old friend Warm my body, dunk my head  
**Em** He was my whole world He was my whole world  
**Bm** Kill the chattering Keep the voices from screaming  
**Em** He was my whole world He was my whole world

**C** I can't stop watching my phone Can't turn it off  
**Em**
