

Siamés - Summer Nights

Tom: C

Thell her when it rains i don't feel it

Tell her i'm to blame didn't see it

Winter's snows don't hide my woes

I can't lie to you

I tried to warm her that sometimes we fall

in the dark

It's summer time

Singing Al Green in your car

Heading into a party

And the night air feels alive

Just sitting here i'm waiting, oh, yeah

And he's not by my side

Feeling dazed and i can't get out

Stuck in yesterday

He don't know it i rarely show it

I can't lie to you

I tried to warm him that sometimes we fall

in the dark

It's summer time

Singing Al Green in your car

Heading into a party

And the night air feels alive

But in my life

I never meant to cause no harm

Never hurt nobody

Just wanna take this chance to fly

On this summer night

(Am F Am F)

But in my life

I never meant to cause no harm

Never hurt nobody

Just wanna take this chance to fly

Acordes
