

# Simon Steadman - For Always

tom:  
Am (forma dos acordes no tom de Bm)

Afinação: D G C F A D

Every single one of us  
Needs someone to say  
You are who I've waited for  
We are both the same

Our paths set to cross  
We found and at last  
And all the stars in  
The sky will shine for us

We're losing control  
We stay young when we're old  
Every moment with you is golden

Like a river needs the rain  
Like a candle needs the flame  
You know that I need you  
Like the ocean needs the shore  
To find what it's been looking for  
You know that I need you

Come with me, you'll never be alone  
Everyday I'll love you even more  
For always

Every single one of us  
Needs someone to say  
You are who I've waited for  
We are both the same

Our paths set to cross  
We found and at last  
And all the stars in  
The sky will shine for us

We're losing control  
We stay young when we're old  
Every moment with you is golden

Like a river needs the rain  
Like a candle needs the flame  
You know that I need you  
Like the ocean needs the shore  
To find what it's been looking for  
You know that I need you

Like a shadow needs the sun  
Everybody needs someone  
I need you

Come with me, you'll never be alone  
Everyday I'll love you even more  
For always
