Tom: G
Intro: 3x: C   D   G

G           G           Em7
Another day is going by
            C          D        G
I'm thinking about you all the time
                G
But you're out there
            Em7      C D G
And I'm here waiting

                 G          Em7
And I wrote this letter in my head
              C          D        G
'Cause so many things were left unsaid
                G
But now you're gone
            Em7
And I can't think straight

C                    G
This could be the one last chance
D
To make you understand

Refrão:
C           G
I'd do anything
D          Em7            C
Just to hold you in my arms
G
To try to make you laugh
D          Em7                  C
Somehow I can't put you in the past
G
I'd do anything
D           Em7          C
Just to fall asleep with you
G
Will you remember me?
D          Em7              C
'Cause I know I won't forget you

G           G             Em7
Together we broke all the rules
              C        D       G
Dreaming of dropping out of school
                G
And leave this place
Em7                  C D G
To never come back

                 G            Em7
So now maybe after all these years
            C        D        G
If you miss me have no fear
              G
```
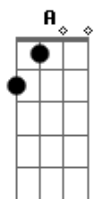

```
I'll be here
            Em7
I'll be waiting

C                    G                                D
This could be the one last chance to make you understand
C                                      D
And I just can't let you leave me once again
