

Simple Plan - Kiss Me Like Nobody's Watching

```
Intro: E B Cm A
                                                               So kiss me
                                                               Like nobody's watching
 I wanna paint it on every wall
                                                               Yeah people are talkin?
 And shout it out up and down the halls
                                                               It doesn't matter what they say
 I wanna post it in shining lights
                                                               Just kiss me
  ?Cause I just can't keep it bottled up inside
                                                               In the middle of the streets
 I wanna call up every single person I know
                                                               To let the whole world see
 Write a song and play it on the radio
                                                               That there?s nobody else for me
 Stick a message in a bottle then I'll let it go
                                                                 Na na na na na
  I don't care what people might think
                                                                 Na na na na na
 I got your name in permanent ink
                                                                 Na na na na na
  ?Cause baby this ship ain't never gonna sink
                                                                 There?s nobody else for me
So kiss me
Like nobody's watching
Yeah people are talkin?
                                                                 I wanna call up every single person I know
It doesn't matter what they say
                                                                Write a song and play it on the radio
                                                                 I don't care what people might think
In the middle of the streets
                                                                 I got your name in permanent ink
To let the whole world see
                                                                 ?Cause baby this ship ain't never gonna sink
That there?s nobody else for me
                                                               So kiss me
 Na na na na na
                                                               Like nobody's watching
 Na na na na na
                                                               Yeah people are talkin?
                                                               It doesn't matter what they say
 Na na na na na
 There?s nobody else for me
                                                               In the middle of the streets
 People around us are cynical
                                                               To let the whole world see
 Go ahead and say that we're typical
                                                               That there?s nobody else for me
 True love is dead, well that's a lie
  ?Cause we'll be together ?til the end of time
                                                                 Na na na na na
                                                                 Na na na na na
 Now I'm burnin? up I'm speaking in tongues
                                                                 Na na na na na
 Listen to my heart it's beating like a drum
                                                                 There?s nobody else for me
 I'm screaming your name at the top of my lungs
                                                                 Na na na na na
 I don't care what people might think
                                                                 Na na na na na
 I got your name in permanent ink
                                                                 Na na na na na
  ?Cause baby this ship ain't never gonna sink
                                                                 There?s nobody else for me
