

# Simply Red - Beside You

Tom: G

We follow the river down into the stream  
That's where my dream began  
I left my worries to the people who stare  
And dreamed without a care

That I'd always be beside you  
To watch the day and night  
And we listen to the sunrise  
And feel it's growing light  
And peace will come inside so quiet

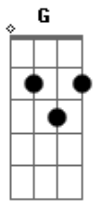

Wherever we're going, I don't know  
For a million years our love keeps growing  
The mystery deepens, day by day

But trust my love, and hear me say

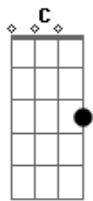

That I'd always be beside you  
To watch the day and night  
And we listen to the sunrise  
And feel it's growing light  
And peace will come inside so quiet  
---SOLO---

And peace will come inside so quiet  
Yes, I'd always be beside you  
To watch the day and night  
And we listen to the sunrise  
And feel it's growing light  
And peace will come inside so quiet  
Yes, peace will come inside so quiet
