

Simply Red - Better With You

tom:
(D G)

[Parte 1]

I didn't know what I was doing
What you were feeling and when did we know
I recall a crowded smoky room
And you and me had enough of the fumes

Better with you, honey, for the things that
We'll never regret
Better with you, honey, as we did the things
We'll never forget
Better with you... ... Better with you
Better with you... ... Better with you... always

It's so good to be together

It's so good to be together

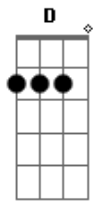

[Parte 2]

You didn't show, so then my heart was aching
Where did you go? You seemed lost for sure
But I recalled the bar you took me in, and
There you're standing with your gin-soaked friends

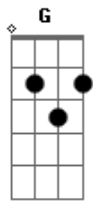

Better with you, baby, before the booze
Got you out of your head
Better with you, honey, for the things that
We'll never regret
Better with you... ... Better with you
Better with you... ... Better with you... always

It's so good to be together
It's so good to be together
It's so good to be together
