        [Intro 2x] Em  Bm  Em  Bm  A

            Bm
If you were here
                                  Aadd9
I'd whisper sweet nothings in your ear
    G
And appeal to all your fears
            Bm
If you were mine (if you were only mine)
                      Aadd9
I'd bring you so much further down
                      G              Gb
And twist your mind until the end of time

[Refrão]
Em                Bm
You will never realize
                      Em
What darkness lies inside
          Bm  A
Inside my mind

            Bm
If you are down
                                Aadd9
I will come to chain you to the ground
    G
And penetrate your mind
            Bm
If you are lost
                A
I'll be there to break you trust
                                    G                  Gb
And ravage all your lust for life, my love

[Refrão]
Em                Bm
You will never realize
                      Em
What darkness lies inside
          Bm  A
Inside my mind
          G
Inside my mind
