

# Sister Hazel - Surrender

Tom: **G**

**D**  
On the plane to **Am** Amsterdam  
**G**  
I left the carnage on the ground **D**  
**Am**  
In your seat was emptiness  
**G** **D**  
So heavy, we could barely right it down  
**C** **D**  
And every color since I walked away  
**C** **G** **A**  
Looks to me like every shade of wrong

(Chorus)

**D** **A**  
But now I'm on the way back  
**Em** **G**  
Chasing something better  
**D** **A** **Bm** **E**  
And it's turning me around  
**D** **A**  
Baby if you still care  
**Em** **G**  
If there's still a burning ember  
**Em** **Gm**  
I'm ready to surrender now

**D** **Am**

The illness of my galaxy  
**G** **D**  
Made you revolve around my world  
**Am**  
But I cast myself as the brightest star  
**G** **D**  
Falling further from the girl  
**C** **D**  
All the things I thought were made of gold  
**C** **G** **A**  
Turned out to be every shade of wrong

(Chorus)

**Bm**  
I left the promise bleeding  
**G**  
Cold and barely breathing  
**Em** **Gm**  
Can you still hold on

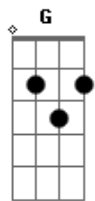

(Chorus)

Ready to surrender  
I'm ready to surrender

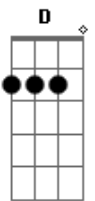

Solo:

Gtr I (**E A D G B E**)
