Sixpence None The Richer - Circle Of Error

```
Tom: C
Intro: Dm7sus  F    C    G       Dm7sus  F        C    G
       Dm7sus  F         C    G    Dm7sus F     C   G

   Dm7sus        F                 C
I see the wonder setting in over where I am going
     G                 Dm7sus                 F
And where I've been and by the way when I kneel to pray
     C                     G     Dm7sus              F
It never seems you're there and I'll admit that I do not try
          C              G
When it's easier to sit down and cry
      Dm7sus              F
I'm so full of doubt, want to let it out
       C            G
Let it out all over you

Chorus:
     Am7        F           C              G
On my circle of error, I go round and round
     Am7        F           C                  G
(VAMP)
On my circle of error, I go round and round again

   Dm7sus          F               C
I'm running things into the ground
```

```
     G                  Dm7sus                    F
All the truth I am seeking has not been found
     C                   G      Dm7sus                      F
And I am weak, all the words I speak bring no passion anymore
                        C            G
And will I try for happiness
            Dm7sus                        F
In the midst of all this emptiness all I want is you
              C              G
If I only knew how to get up off this floor

Chorus (2x)

              Am7       F              C                    G
F
...On my circle of error, I go round and round and round again
           C   F              C   G
Can I ask, can I fight, can I scream
                     Am7     F7M
For you to forgive the time I've spent on this awful

Vamp
Chorus (4x)
       Am       F   C   Am     F           C
Repeat And Fade...
```
