

Sixpence None The Richer - Northern Lights

Tom: C

it burns me down when I think of all the tears you've cried
for one million miles I've I logged on roads that led away
from you
knowing there was nothing you could do
inside my mind I saw you driving in your car
just one silhouette in the wind with a prayer that this would
not go
to far

away from my residual flame
our bodies growing cold like stars
that lose their will to burn and fade into the night
but we could burn like the northern lights

Refrão:

baby - please stay
we can make it through another day

it may - must we?
all the fiber optic arguments

without the warmth of your flesh we couldn't really make much
sense

but now it's over and I am here my body next to yours

we'll feed the flame with the fuel of time and burn like the
northern

lights

I'm tired of all the senseless fights

Refrão 2x:

baby - please stay
we can make it through another day

we could burn like the northern lights
baby

you love me and I love you

so, baby - please stay

we can make it through another day

baby - please stay

we can make it through another day

baby - please stay

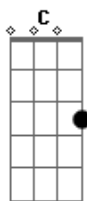

we can make it through another day

baby - please stay

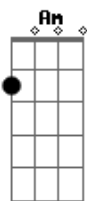

we can make it through another day

we could burn like the northern lights baby
