                          Intro: Abm Gb B
         You spoke a word and life began
                                                                                                                                                                                                                                          Gb
         Told oceans where to start and where to end % \left( 1\right) =\left( 1\right) \left( 1\right) \left(
                                                                                                                                                                                              Gb B
       You set in motion time and space
                                                                                                                                                      Abm
         But still you come, and you calling me by name
                                                                                                                                                                  Abm
                                                                                                                                                                                                                                                                                                                                                                                                                              Gb B
         But still you come, and you calling me by name
                                                                                                                            CHORUS:
If you can hold the stars in place
                                                                                                                                                        Abm Gb
You can hold my heart the same
                                                                                                                                                                               В
