Tom: G

^{Em} You gon' make make me a ^{Am} believer
^{Em} Even if that shit ain't true
^D You gon' make me commit murder
^D Baby, I'd kill for you

^{Em} In my eyes
^{Am} Even if you are wrong, you are right
^{Am} Even if there is a terrible crime
^{Em} It's alright, cause I got your back, and I know you got mine
^{Em} I belong to the church of your name
^{Em} Sing a song, cause I worship the ground you walk on
^D If I pray for you, I know you'll be there

^{Em} You gon' make make me a ^{Am} believer
^{Em} Even if that shit ain't true
^D You gon' make me commit murder
^D Baby, I'd kill for you

^{Em} In my bed I believe every word that you've said
^{Am} Just a kiss and you make me forget
^D All the bad, the battles we lost, the bodies we hid
^{Em} You don't know, just how far I'd be willing to go
^{Am} You put the cracks into my moral code
^{Em} So you can count on me to always be there

^{Em} You gon' make make me a ^{Am} believer
^{Em} Even if that shit ain't true
^D You gon' make me commit murder
^D Baby, I'd kill for you

^C Oh, Lord, forgive my weary hands
^D And for what they may do
^C I'll carry out his evil plans
^D If he wants me to

^{Em} In your dream, you're drowning, I just waltzed in and saved

you
^C I'm your alternate escape route, the altar you pray to
^G Your ultimate savior, your behavior is altered
^D Ain't your fault cause I made you
^D Brainwashed and persuade you
^{Em} Gibraltar, you're faithful, never falter or waver
^C When you causing the danger I'm your guardian angel
^G Nobody can tell you shit, you've already made your
^D Mind just follow me, babe, you
^D Won't be sorry you stayed, you
^{Em} Always ride, whatever the plan is
^C To the end, even if I led us into an ambush
^C Even if we robbed the First National
^G And cops caught us redhanded
^D They're coming at us, and we're trapped, put our backs up
^{Em} Against the wall, and it's too tall
^C You catapult me or hold the ladder for me
^C Stay back to get captured, take the fall
^G You make it all worth it
^D Baby doll, you're perfect the way you are
^D Accidents happen
^{Em} All I know is you love me, that's really all that matters
^C And any who cross our paths are just collateral damage
^G At your side, got your lateral, back, your front,
^D Diagonal Backwards, blackbirds, we attack like animals
^D When they threaten what we have it's a natural reaction
^{Em} You lay a bitch flat on her back in a second flat for me
^G Who tries to take your man from you
^D It's blasphemy, another casualty, you'll go whatever route
^{Em} Whatever you have to do, you blast for me
^{Em} I never doubt that you
^{Em} You gon' make make me a ^{Am} believer
^{Em} Even if that shit ain't true
^D You gon' make me commit murder
