

## **Sleep Token - Dangerous**

tom: Rm

R<sub>m</sub>7

I wish I could have known that

Look in your eyes would echo in mine and go back

Out of my mind, across the line

When was the last time I felt like this?

Dark desire and tainted bliss

It's like you're dangerous to me

I notice every time we meet

Bm7 I feel the ground beneath my feet giving way

You've got me talking in my sleep

D As if you're conquering my dreams

You have awakened what's beneath again

Well, I thought I could resist you

But something in me just can't help but insist to

Blur the lines just one last time so

When's the last time you tasted blood?

And what will it take to stem the flood?

And I am caught in time

Like clockwork beneath the permafrost

I might lose my mind

Back to back with oblivion

And you might breathe that burning breeze through Bm7

Paradise for me

It's like you're dangerous to me

I notice every time we meet
