# Sleeping With Sirens - Save Me a Spark

Tom: C

    Intro: Am F C G x2

```
                        Am        F
I want to paint down my memories
     C            G
So I don't forget
                    Am         F
Can we dance when it's cold outside?
        C            G
Can we live with no regrets?
     Am       F            C            G
So many people get caught up in everything they see
Am          F              C       G
You can always trust what you believe

   F
Sometimes I feel stuck
C                     G                 Am
Sometimes I get lost in so much hope I'm drowning

Am        F          C         G
Would you save me a spark? (Oh-Whoa)
Am             F                    C              G
We'll start a fire that shines a light in the dark
         F
Strike a match
          G
Make it last
C                 Am
We are all we need (Whoa)
Am        F           C
Would you save me a spark?
        G          Am     F     C
We'll light up the dark
        G          Am     F   C     G
We'll light up the dark

G                     Am          F
I wanna crash like a tidal wave
          C            G
Sinking to the ocean floor
                        Am            F
I want to stand in a crowded room
             C                    G
Screaming the voice they can't ignore
         Am          F
While everyone is sleeping
C              G
I am wide awake
         Am            F             C         G
Cause hearts are only open when they break

   F
Sometimes I feel stuck
C                     G                 Am
Sometimes I get lost in so much hope I'm drowning
```

```
Am          F         C          G
Would you save me a spark? (Oh-Whoa)
Am               F                 C                G
We'll start a fire that shines a light in the dark
          F
Strike a match
          G
Make it last
C                 Am
We are all we need (Whoa)
Am        F           C
Would you save me a spark?
        G
We'll light up the dark

Am        F       C              G
Let me see you light up the dark (Whoa)
Am           F        C            G
I want to see you light up the dark (Whoa)
Am        F      C              G
I wanna see you light up the dark
Am                     F
While everyone is sleeping
C                  G
We'll be wide awake (we'll be wide awake)

Am        F       C        G
Would you save me a spark? (Oh-Whoa)
Am               F                 C                G
We'll start a fire that shines a light in the dark
          F
Strike a match
          G
Make it last
C                 Am
We are all we need (Whoa)
Am        F           C
Would you save me a spark?
G                             Am         F
I want to paint down my memories
     C            G
So I don't forget
                         Am         F
Can we dance when it's cold outside?
        C            G
Can we live with no regrets?
             F
Strike a match
          G
Make it last
C                 Am
We are all we need (Whoa)
Am        F           C
Would you save me a spark?
        G          Am     F    C
We'll light up the dark
        G          Am     F    C
We'll light up the dark
        G          Am
We'll light up the dark
```
