

# Sleeping Wolf - The Wreck Of Our Hearts

Tom: A  
Intro: A

We were drifting all night

Losing hold of the light

But I saw in your eyes

I was never alone

Even when it got hard

When the shore was too far

Even there in your arms

I've always been home

Oooooooooo

So sing while we're falling apart

I'll take you dancing

We lived through the wreck of our hearts

And now we're

Just picking up the pieces

Learning how to see when

Love is in the dark

There's a cold empty room

There's a windowless view

There's a me without you

But that's not where I belong

Through the waves of the deep

And the storms of the sea

I have you and you me

We're not too far gone

So sing while we're falling apart

I'll take you dancing

We lived through the wreck of our hearts

And now we're

Just picking up the pieces

Learning how to see when

Love is in the dark

Love is in the dark

Love is in the dark

Hmmmmmmmm

( E )

So sing while we're falling apart

I'll take you dancing

We lived through the wreck of our hearts

And now we're

Just picking up the pieces

Learning how to see when

Love is in the dark

Love is in the dark

[Final] A E A
