

# Slipknot - Yen

tom:

**Am**  
You're the sin that I've been waiting for

**E**  
The hands around my throat

**D2**  
It's all I can think about

**Aadd9**  
The smell of sweat and blood

**Am**  
I would feed you all my pleasures

**E**  
Just to drown in all of yours

**D2**  
Have you heard of me?

**E**  
Are you hurting me?

**Am**  
Let me savor what I'm waiting for

**E**  
A chance to make me choke

**D2**  
You're all I can think about

**Aadd9**  
The taste is red in rust

**Am**  
Can I hold you in my mouth

**E**  
Until I fade into this form?

**D2**  
Can you cover me?

**E**  
Will you breathe for me?

**Am**  
As the knife goes in, cut across my skin

**E**  
When my death begins

**C**  
I wanna know that I was dying for you

**E**  
I died for you

**Am**  
As the knife goes in, cut across my skin

**E**  
When my death begins

**C**  
I wanna know that I was dying for you

**Am**  
I died for you

**Am**  
I don't know what has happened yet

**E**  
A surge of panicked zeal

**D2**  
Worry when it's not effect

**Aadd9**

This game is fine by me

**Am**  
All the words for retribution

**E**  
Only add up to revenge

**D2**  
Overpower me and

**E**  
Devour me

**Am**  
As the knife goes in, cut across my skin

**E**  
When my death begins

**C**  
I wanna know that I was dying for you

**E**  
I died for you

**Am**  
As the knife goes in, cut across my skin

**E**  
When my death begins

**C**  
I wanna know that I was dying for you

**Am**  
I died for you

**Am**  
Show me all the deaths are the same

**Am**  
Show me you'll remember my name

**E**  
Show me all the deaths are the same

**Am**  
You will remember my name

**Am**  
I wish this pain could last forever

**E** ( **E C Am** )  
Forever

**Am**  
I wish this kill could make me suffer

**E**  
For good

**Am**  
As the knife goes in, cut across my skin

**E**  
When my death begins

**C**  
I wanna know that I was dying for you

**E**  
I died for you

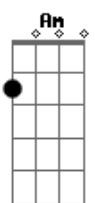

**Am**  
As the knife goes in, cut across my skin

**E**  
When my death begins

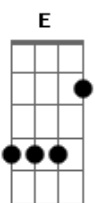

**C**  
I know that I was dying for you

**Am**  
I died for you
