Intro: Gm Eb Bb F
       Eb Eb Eb Bb
 I can't believe it how we ended up so far
                            Bb
 We could be coasting like the angels with a habit
                             Bb
 I'll see the ocean closer if you let me say my piece
            Gm Eb Gm
 Calling out relief
 You can tell me you're not like this
 Staring down the pages of the shit you've missed
 Hoping you find a way to change
                         Eb
 Days spent waiting in my living grave
 Then turning up at parties like a hurricane
 But it comes in waves
            Gm Eb
 It comes in waves
Bb F Gm
 Comes in waves

 The structure's building if I lay foundations down
                             Bh
 And stolen moments like her birthday I'll forget, that
                            Bb
 I could be cleaner, but I stay bathing in filth
       Gm Eb Gm
 Craving to be still
 You can tell me you're not like this
 Staring down the pages of the shit you've missed \begin{tabular}{c} \end{tabular}
 Hoping you find a way to change
 Days spent waiting in my living grave
 Then turning up at parties like a hurricane
 But it comes in waves
                Gm Eb
 Oh it comes in waves
Bb F Gm
 It comes in waves
