

# Slowdive - Sugar For The Pill

tom:

There's a buzzard of gulls  
 Travelling in the wind  
 Only lovers alive  
 Running in the dark

[Chorus]

Anna rolled away, said we never wanted much  
 Just a rollercoast', our love has never known the way  
 Sugar for the pill, you know it's just the way things are  
 Cannot buy the sun, this jealousy will break the whole

[Verse 2]

Cut across the sky  
 And move a little closer now

## Acordes

Lying in a bed of greed  
 You know I had the strangest dream

[Chorus]

Anna rolled away, said we never wanted much  
 Just a rollercoast', our love has never known the way  
 Sugar for the pill, you know it's just the way things are  
 Cannot buy the sun, this jealousy will break the whole

[Instrumental]

[Chorus]

Anna rolled away, said we never wanted much  
 Just a rollercoast', our love has never known the way  
 Sugar for the pill, you know it's just the way things are  
 Cannot buy the sun, this jealousy will break the whole
