To the centre of the earth, or anywhere that god decides
                                                                 So beats the final coda, of a vinyl storm
                                                                 Em7

Full of fever pulling forth, We hear our call as all
                                                                 One more cherry cola, to lift up her dead arms

Into the centre of the earth, as written in
                                                                 A dream of soft focus sunsets, filters through the din

DNA is reaching out, to your frequency
                                                                 We are losing contact, as she dials away

I want to live

Don't want to die
                                                                 F<sub>m</sub>7

I want to live
I want to try
                                                                 I have seen a thousand fractures, I have seen everything

All in prayer, prayer in all
                                                                 Cause knowing is its own answer, love something in a book
                 Em A
All are scared, scared of all
                                                                 There's not much left to ponder, not much left to cook
Black rooms are calling, to men in leather coats
                                                                                            D2
White labs are cooking up the silver ghost
                                                                 As she counted the spiders, as they crawled up inside her
The glass migrates under, her translucent skin
                                                                                            D2
And all the spiders wonder, what we've got us in
                                                                 As she counted the spiders, as they crawled up inside her

                                                                 As she counted the spiders, as they crawled up inside her
              Em A
All is you, you are all
                                                                                            D2
                                                                 As she counted the spiders, as they crawled up inside her
                 Em A
All with you, you in all
                                                                                            Bm7
