

Snow Patrol - Heal Me

tom:
Capotraste na 2ª casa
Intro: G C G C

[Primeira Parte]

Can you heal me, baby?
I've been dancing in this fire for way too long
But I kind of like it
Though I like it cos it's more dangerous than me

[Segunda Parte]

There's a siren somewhere
But I'm pretty sure it's only in my head
So tell me how'd you hear it?
Is there something supernatural in your bones?

[Pré-Refrão]

Oh this is love like wildness coursing through you like a drug
And this is hurt like kindness breaking you with gentle hands

[Refrão]

C G D D C

I call out your name, it feels like a song I know so well

And it whispers and roars like an orchestra

You call out my name like no one before

It sounds like I am called to a home that I never had

(G C G C)

[Terceira Parte]

Can you heal me, baby?
I've been wasted in the arms of everyone
I wasn't looking for you
But I think maybe I was and didn't know

[Pré-Refrão]

Oh this is love like wildness coursing through me like a drug
And this is hurt like kindness breaking you with gentle hands

[Refrão]

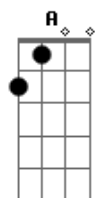

I call out your name, it feels like a song I know so well

And it whispers and roars like an orchestra

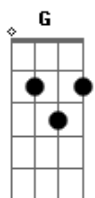

You call out my name like no one before

It sounds like I am called to a home that I never had
