

Snow Patrol - In The End

```
Tom: C
 Intro:
 Verso 1:
 It's the price I guess % \left\{ 1,2,\ldots ,n\right\} =\left\{ 1,2,\ldots 
                 Am7
 For the lies I've told
 That the truth it, no longer thrills me
 And why can't we laugh?
                                                               Am7
 When it's all we have
 Have we put these childish things away?
                                                                                                                          G
 Have we lost the magic that we once had?
                                              F G
                                                                                                                                                        Am C
 In the end, in the end
                                                            F
  There's nothing more to life than love, is there?
                                  F G Am C
 In the end, in the end
                                                                                                                                                                 G
 It's time for us to lose our weary minds
Verso 2:
 Will you dance with me?
 Like we used to dance
                                                  F G
 And remember how to move together
 You are the torch
 And it all makes sense
```

```
I've waited here for you forever
          G
I've waited here for you forever
     F G
In the end, in the end
There's nothing more to life than love, is there?
    F G Am C
In the end, in the end
It's time for us to lose our weary minds
Intervalo: (Am G F ) 2x
     Αm
                G
We're lost 'til we learn how to ask
    Am
             G
We're lost 'til we learn how to ask
      Αm
              G
We are lost 'til we learn how to ask
      Am G
So please, please just ask
     FG
In the end, in the end
There's nothing more to life than love, is there?
   F G Am C
In the end, in the end
             G
It's time for us to lose our weary minds
     G
                              Am C
```

There's nothing more to life than love, is there?
