

Snow Patrol - Life On Earth

tom:
Capo: 2ª casa
Intro: A Em G A
A Em G A

[Primeira Parte]

The first snow, first winter of my life
I was told it was the height of me
The first dance, well the first one that counted
Felt like my blood was built from crackling lights

Oh this ancient wildness
That we don't understand
The first sound of a heartbeat
To riots roaring on

[Refrão]

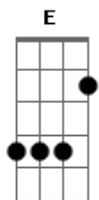

This is not a love you've had before
This is something else, this is something else
This is not the same as other days
This is something else, this is something else
It shouldn't need to be so fucking hard
This is life on earth, it's just life on earth
It doesn't need to be the end of you, or me
This is life on earth, it's just life on earth

(A Em G A)

The first light, first light on the silent shore
Just the ships that anchor me and you
The way home, this is always the way home
So you can rip that map to shreds, my dear

But all we ever wanted
Seem miles and miles from here
In the first days in a strange new land
We could be settlers

[Refrão]

This is not a love you've had before
This is something else, this is something else
This is not the same as other days
This is something else, this is something else
It shouldn't need to be so fucking hard
This is life on earth, it's just life on earth
It doesn't need to be the end of you, or me
This is life on earth, it's just life on earth
