

S.O.J.A. (Soldiers of Jah Army) - Everything Changes

Tom: B	Sleeping at night Without a murder In some little town you've never heard of
Riff 1 2x:	
Para a riff 2 é necessário prestar bastante atenção a música: Riff 2 1x:	Now look at your nightmare And all of your worst fears Your car and your house and Your girl and it stops there
Riff 2b logo em seguida da Riff 2 na introdução	
Riff 2b	All these things you Can't imagine losing Like oh no what if That happens to me
(E Gb Abm)	
What do we really need In this life I look to myself sometimes I guess not right	Well what you've got They'll never have To be like you, To have your chance To be like you Before they're gone
People out there with no Food at night And we say we care, but we don't So we all lie	(E Gb Abm) Nothing ever changes At least that's how we act Like nothing ever changes Like god has got our backs And nothing ever changes I'm looking down this road And all I see is pain, yes
What if there's more to this And one day, We become what we do, Not what we say	
And we end up in all the shit That they're in And roles are reversed, And it was different	Maybe we need more Shoes on our feet Maybe we need more Cash and jewelry
And we were the ones With nothing to eat And we were the ones With blood in our streets	Maybe we need more Cars and TV's Maybe we don't know What we need
We were the ones With all the offspring And they were the ones Just watching on TV	Maybe we need To want to fix this Maybe stop talking Maybe start listening
We were the ones Broke down and torn With our life on our back And our wife in our arms	Maybe we need To look at this world Less like a square And more like a circle
And they were the ones Like oh that's so sad We were the ones Like OH...	Maybe just maybe God's not unfair Maybe were all his kids And he's up there
Nothing ever changes The only thing I know Nothing ever changes Looking down this road Nothing ever changes Nothing ever changes	Maybe he loves us For all our races Maybe he hates us When were all so racist
[RIFFF 2]	Maybe he sees us Down here so selfish Takes this whole planet And just tries to melt it
(E Gb Abm) Look at your dreams And your intention How selfish it is for you Yo mention	Maybe the meat Will inherit the earth ?Cuz it was written before
Turning your thousands Into millions Marry a model Then you'll have some children	So everything changes Nothing stays the same
Well they've got their Dreams too, I imagine Like what if it wont come back to kill them	And everything changes And if you feel ashamed
	Maybe you should change this Before it gets too late
	Maybe you should change this

We're standing at the gate

Maybe you should change this
Because everything changes

You should change this

Because everything changes

Everything changes
Everything changes

Finaliza com [Riff 2]
