```
solo :
Intro: Em D Em D Em D C D
Even asleep, mentality's awake
Nobody realises how much we can take
Let's save the future of the world for our sake
We cry forwards ever, backwards never
We were the students, but now we're the ones who teach
We were the children and your lies we did believe
But we ain't kids no more, and we don't need your speech
We go forwards ever, backwards never, and
Truth and right is yours to control now
There's no way, no how
That we would ever do what they have done
Under jah sun
Intro: Em D Em D Em D C D
You're right, and we're forever wrong
Em D
Iraq, Afghanistan, Vietnam
Bp oil, Hydrogen bomb
Forwards never, backwards ever
The plane's in the air Em D
Look down, the animals are scarce
Oil is water now, and water's everywhere \begin{tabular}{c} \begin{t
