

S.O.J.A. (Soldiers of Jah Army) - Shadow

Tom: C

C , F , Am , G

I'm not a shadow

I'm not the ground beneath your feet

I'm not a shadow

When you look down, you wont see me

Ill stand up and ill stand tall

I don't follow anyone

I'm not a shadow, cause I'm not a shadow

C , F , Am , G

Here's to you don't settle, and never separate
And never be quiet cause the words you say
You never go back on and never turn around
Never judge another cause as stupid it sounds

C , F , Am , G

Cause when you see others knowin' they're all brothers
Knowin' they're all sisters, seein' the big picture
If they're not with you, then they're against
And were here now when they are way back when

C , F , Am , G

So why try to please everyone?
When it seems that all the people really want
Is to show love, and out and get love back
Is to show some faith and get respect

C , F , Am , G

Just look at the world then, you look at the problems
And look at the hatred, and we still cant solve it
So look inside and you'll find step one
Forget a diamond I'm shinin' like the sun

C F

I'm not a shadow

I'm not the ground beneath your feet

I'm not a shadow

When you look down, you wont see me

Ill stand up and ill stand tall

I don't follow anyone

I'm not a shadow, cause I'm not a shadow

C , F , Am , G

Here's to you on your own, the innocent criminal
You never fit the mold, you never go sit down
You never go get approval no matter how you prove
That love is the motive in everything you do
And revolution is you and you're against the machine
You know who you are and you know what I mean
And when this record stops you would never slow down
When the video is over you want your turn now so

C , F , Am , G

You make the truth and move straight ahead
While the followers behind you get left for dead
For the imminent brainwash follow the dumb rules
Created by individuals who unlike you

C , F , Am , G

Don't care for the world or, care for the people
They love it their way, and they love unequal
And they love when they feel above someone
I don't follow the leader when they're all wrong

'Cause I'm not a shadow

I'm not the ground beneath your feet

I'm not a shadow

When you look down, you wont see me

Ill stand up and ill stand tall

I don't follow anyone

I'm not a shadow, cause I'm not a shadow
