

# S.O.J.A. (Soldiers of Jah Army) - She Still Loves Me (Feat Collie Buddz)

tom:

Intro: A D Gbm E

I know it's hard now for you to see  
You can't change how it was or how it's gonna be  
I'm what she wants, you're just what she needs  
And yet she still loves me, she still loves me

Where is her sweater? It's not in her car  
Is not at her friend's house, it's not at the bar  
I think you better think with the heart  
Take a look at yourself and see how lucky you really are  
I don't believe in luck after all  
Neither does she, but you know that now  
You should forget her, 'cause I've got her heart  
She hates the way that I tear it apart

I know it's hard now for you to see  
You can't change how it was or how it's gonna be  
I'm what she wants, you're just what she needs  
And yet she still loves me, she still loves me

You need to focus on what really, really matters then  
How she's feeling when she's crying over you again  
And every single time you break a girl's heart in two

There's a little less of it when it comes back to you  
And one day she could pack all of her things and go  
And down the line she find herself at a Collie show  
And even though she maybe thinks of you from time to time  
Just know that, that girl is mine

I know it's hard now for you to see  
You can't change how it was or how it's gonna be  
I'm what she wants, you're just what she needs  
And yet she still loves me, she still loves me

What does she talk about when her father calls?  
She says what you say, she says that 'old man, you're the one?  
What does she talk about when her mother calls?  
And you don't come up, you don't come up at all

I know it's hard now for you to see  
You can't change how it was or how it's gonna be  
I'm what she wants, you're just what she needs  
And yet she still loves me, she still loves me

I know it's sore now for you to see  
Cause you can't change a thing about how it used to be  
I'm what she wants and you are just what she needs  
And she still loves me, she still loves me  
She still loves me
