Intro: **Em C D** (2x)  
**Em**

**Em**  
You can search the world for signs of life  
**C D**  
And realize the truth is in your heart, is in your heart  
**Em**  
You can try to become who you want  
**C D**  
And never get away from who you are, is who you are  
**Em**  
You can trust another like no other  
**C D**  
Watch them fall and then you fall apart, it there's you apart  
**Em**  
Always seen myself alone  
**C**  
**D Eb**  
But in my darkest hours is there you are, it's where's my guitar  
**Em**  
So I can say  
**D C**  
Oh now, oh now, oh now, now now now now  
**D Eb Em**  
Oh now, oh now, oh now, now now now  
**D**  
Oh now you gotta slow down  
**C**  
Oh now all I have is now  
**D Eb**  
Oh now, oh now, oh now

**Em**  
I've been all around the world to find it  
**C D**  
Travel east and west like everyday, everyday  
**Em**  
I've been high and low since I have lost it  
**C D**  
How do I get back to yesterday, it feels like a game  
**Em**  
I have seen the look in people's eyes sometimes  
**C D**  
All I do is chase them away, chase them away  
**Em**  
Cause I have been all around the world  
**C D**  
**Em**  
To find it every time I do I don't let it stay, I chase it away  
**Em**  
So now I say  
**D C**  
Oh now, oh now, oh now, now now now now  
**D Eb Em**  
Oh now, oh now, oh now, now now now  
**D**  
Oh now you gotta slow down  
**C**  
Oh now all I have is now  
**D Eb**  
Oh now, oh now, oh now  
( **Em C D** ) (2x)  
( **Eb Em** )
