

# S.O.J.A. (Soldiers of Jah Army) - Strength To Survive

Tom: F  
Intro: de trompete tocada em guitarra 2x

I'm amazed in the way that we've got this far  
Place we're going and the things we've done  
Amazed in the way that we are still here  
Just looking at our last fifty years

And I'll task, in the west in the years to come  
Does the dollar really matter when our whole world is gone?  
Worry about yourself, while the world stills turns  
But, Waiting until we watch it burn

Stuck in a revolving door  
Caught in our race for sure  
Just look into your eyes  
Now do we have the strength to survive

Stuck in a revolving door  
Caught in our race for sure  
Just look into your eyes  
Now do we have the strength to survive if I live here  
Intro: dução (2x)

It's not like cigarettes, not like your TV's,  
Bigger and brighter than any other thing,  
Just consum less, and giving back more  
And live our old ways at the door

And I'll wait, if we don't, we can kiss it goodbye  
Our sun, our moon, our earth and our sky  
Our world we will recover in a billion years  
But if we're not living here

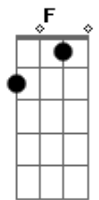

When we are  
Stuck in a revolving door  
Caught in our race for sure  
Just look into your eyes  
Now do we have the strength to survive

When we are  
Stuck in a revolving door  
Caught in our race for sure  
Just look into your eyes  
Now do we have the strength to survive... c'mon

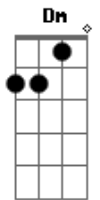

Do we have strength to survive? c'mon  
Do we have strength to survive? c'mon  
Do we have strength to the... we have strength to the...  
Do we have strength to survive?

When we are  
Stuck in a revolving door  
Caught in our race for sure  
Just look into your eyes  
Now do we have the strength to survive?
