Dm                        C
From the very first time I saw you
F                    Gm
I felt my whole life and it was all new
Dm                        C
I felt my knees get weak, my heart went crazy
F                      Gm
I felt some yes and no, I even felt some maybes
Dm                     C
I'd climb a mountain top, I'd swim an ocean too
F                    Gm
Get down on my knees only if it was for you
Dm                      C
I think that I would do about anything
 F                       Gm
You're in my dreams and in the song I sing

        Dm                      C
Come on tell me, tell me tell me, anything
F        Gm
And I will believe you
      Dm                    C
Tell me, tell me, tell me not to go
F        Gm
And I will never leave you
      Dm                C
Tell me, tell me, tell me I'm yours
 F          Gm
Tell me that you're the same
       Dm         C              F         Gm
Oh tell me, tell me, tell me, tell me, anything

Dm C F Gm
```

I've seen so many girls,
I've heard so many lines
And once or twice I thought
That one of them was mine
Well how it always goes

And how it's always been
I start to think that we'd be better off if we were friends
But there's a new turn
Yeah, there's a new twist
I know I said before that I just couldn't handle this
I'm not the type to write you love songs
Oh it would help if somebody sang along

And said tell me, tell me tell me, anything
I will... believe you
Tell me, tell me, tell me not to go
I will... never leave you
Tell me, tell me, tell me I'm yours
Tell me
That you're the same
Tell me, tell me, tell me, tell me, anything
Tell me...
Anything
Anything
Oh, anything

Yeah
From the very first
time I saw you
It was something different
And it was all new
It's in the way you move
And how you look at me
Like being stuck on you is something I'm supposed to be
And that's okay to
And if you feel the same
Then we can trade looks and maybe we can trade names
And we can look back down that damn road
And this ain't how the right song goes

It goes tell me, tell me tell me anything, and I will...
Believe you
Tell me, tell me, tell me not to go, and I will...
Never leave you, yeah
Tell me, tell me, tell me I'm yours
Tell me, tell me that you're the same
Tell me, tell me, tell me, tell me, anything
